

INFORMATION BROCHURE

BRNO-TURANY AIRPORT (BRQ, LKTB)
OPERATED BY AIRPORT BRNO Ltd.
May 2009

BRNO CITY AND SOUTHERN MORAVIA REGION

This economically significant region has a favourable location in the south-eastern part of the Czech Republic, and has borders with both Austria and Slovakia

It is a significant European traffic junction point, where two multimodal trans-European corridors meet, connecting the north-west and the north-east, with southern countries.

Southern Moravia Region achieves the fourth place in Czech Republic in export of product and services.

Brno City is an important industrial, business, administrative and cultural centre for the Region, and over 40 international fairs and exhibitions, including engineering, consumer products, food/clothes products, motoring, are held at Brno Fairs and Exhibitions Centre each year.

This international exhibition centre attracts an attendance of more than 5000 exhibitors each year from both Europe and the rest of the world.

Southern Moravian Region is the third most densely populated region in the Czech Republic, and the regional city of Brno, with 380 thousand inhabitants, is the second largest city in the Czech Republic. With its International Trade Fair Centre of Central Europe, seats of significant governmental and non-governmental institutions, including several supreme government authorities, and diplomatic representatives of several countries located in Brno, it is recognised as an important location within Czech Republic.

With a thousand year history of being populated, Southern Moravia Region has always provided excellent conditions for living within the densely inhabited regions of Central Europe. The surrounding countryside and its local features, small towns and villages connected by tracks as well as roads, together with its raw mineral deposits, have all influenced the development of the region and increase its prospects for tourist and business development in the future, especially with Czech Republic having joined European Union.

SOUTHERN MORAVIA REGION – FACTS AND FIGURES

- Area 7 066 sq. km, total number of towns and municipalities 647, of which 47 are towns
- Population 1,133, 834 (11.1 % of inhabitants of Czech Republic), density of population 161 inhabitants/sq. km (average in Czech Republic is 131 persons/sq. km), 63.3 % of population reside in towns/cities
- Average age 39 years
- Fourth place (from total 14) in the total exports from Czech Republic
- 10% GDP creation of Czech Republic
- A total of 241 industrial enterprises with 100 or more employees
- Arable land covers 50.9% of the area of the region (Czech Republic average 40.8%)
- Located in the region are 89.6% of all vineyards, and more than one fifth of orchards in the Czech Republic
- 55.2% of population older than 15 years, have completed secondary education and gained school leaving certificates. There are seven colleges and two universities located within the region with 70 thousands of students.
- For every 10 000 inhabitants in the region, there are 72.6 hospital beds (Czech Republic average 65.7 beds), and one medical doctor for every 245 inhabitants
- Located in the region are 111 outdoor and indoor swimming pools, 1 240 playgrounds, 684 gyms, 99 stadiums (incl. Winter and indoor) and other multipurpose halls and sporting grounds
- Located in the region is one of four Czech National Parks, three protected landscape areas, and a total of 254 small protected areas and 16 nature parks
- A total of 732 accommodation facilities/Hotel/Pensions/Hostels, with a total capacity of 36 374 beds, are to be found in the region.

LETISTE BRNO a.s.

Since July, 1st, 2002, Brno Airport has been privately managed by LETISTE BRNO a.s. The company has obtained a 35 years concession to operate Brno Airport. This is the first time, and a pilot project, that such a private/public sector concession has been authorised within the Czech Republic involving an Airport business.

LETISTE BRNO a.s. undertook the present employment status of employees from Czech Airports Authority, a state enterprise, which formerly operated Brno Airport until the status change date. The qualifications and abilities of the retained staff are to a high level, many of them with long term experience within the area of airport operation and development. The total airport area under management is 380 hectares large. Since July 1st, 2004 has been the airport ownership handed over to South Moravia Region. LETISTE BRNO a.s. continues to operate the airport as the private operator under lease contract with South Moravia Government.

Brno International Airport is one of four main international airports in Czech Republic. The present capacity, and future development potential, enables Brno Airport to provide services to all its customers from its catchment area, which is South Moravia Region, part of neighbouring regions, part of Austria and Slovakia.

AIRPORT CATCHMENT AREA AND LOCATION

Within a radius of 100 km, the population is more than 2.5 million, and within a radius of 150 km, the total population is 5 million.

Brno Airport is located 200 km east of Prague, the capital city of Czech Republic, is 120 km North of Vienna, capital city of Austria, and 130 km North-West of Bratislava, the capital city of Slovakia.

CARGO HEADLINES

OUR TARGETS: High Level of Services
 Flexibility
 Punctuality

OUR ADVANTAGES:

- **strategic geographical position** between West and East European Union with convenient starting position to Middle East, Gulf, Caspian, Far East, Russia and former CIS countries
- specialised in **outsized and heavy cargo**
- **H24/365** days including customs
- **no** operational and other **restrictions**
- flat fees and handling rates without price surcharges in night/weekend/public holidays
- **highway** and **railway** on the spot
- specialised humanitarian relief flights
- bonded warehouses
- covered bonded storage **8,000 sq. meters**
- uncovered bonded storage 20,000 sq. meters
- competitive storage prices
- free aircraft parking space
- equipment: 15 and 20 tonnes High loaders, forklifts 1,5 to 10 tonnes, cranes up to 40 tonnes O/R

- **our customers and partners** – TNT (scheduled service), Panalpina, Air Charter Service, BAWDF, Chapman-Freeborn, DHL-Dansas, major Airline Brokers from UK, Germany, France, Coyne Airways, World Transshipment Services, Transvalair....

AIR NAVIGATION CHARGES, ENROUTE CHARGES

Terminal Navigation Services effective from January 1, 2008 – charged by Air Navigation Services of the Czech Republic

Aircraft with Maximum Take Off Weight (MTOW) over 2 tonnes

CZK 6 800 per Terminal Service Unit

The terminal service unit shall be equal to the weight factor for the aircraft.

The weight factor, expressed as a figure taken to two decimal places, shall be the quotient, obtained by dividing by fifty the number of metric tons in the maximum certified take-off weight of the aircraft to the power of 0,7.

Terminal service unit = $(\text{MTOW in t.}/50)^{0,7}$
